Because of limited testing capacity, the number of cases detected through testing represents only a small portion of the total number of likely cases in the County. COVID-19 data are reported as timely, accurately, and completely as we have available. Data are updated as we receive information that is more complete and will change over time as we learn more. Cases are lab-confirmed COVID-19 cases reported to San Mateo County Public Health by providers, commercial laboratories, and academic laboratories, including reporting results through the California Reportable Disease Information Exchange. A lab-confirmed case is defined as detection of SARS-CoV-2 RNA in a clinical specimen using a molecular amplification detection test. Cases are counted by episode date; episode date is defined as the earliest of: case symptom onset date, sample collection date, date of laboratory result, or date of death. Deaths reported in this dashboard include only San Mateo County residents; death data last updated February 8, 2021.

Vaccinations administered as part of federal health care organizations or programs such as the Veterans Administration (VA) report to federal immunization systems, may not report into CAIR2, and may not be included in vaccination numbers on the dashboard. On February 2, 2021, CDPH reported a possible undercount in the number of vaccinations administered to county residents for a portion of records submitted to CAIR2; corrections to previously reported vaccination data are underway.

COVID 19 Vaccinations of San Mateo County Residents

Vaccinations for San Mateo County residents are reported to SMC Public Health via the California Immunization Registry (CAIR2). COVID-19 vaccine administration data are reported as timely, accurately, and completely as data become available. Previous data will change as new and updated data are received.

Vaccine Doses Administered by Date

Note: The first vaccine dose administered to a resident was on January 04, 2020

Vaccination Series Completed by Date

Note: Vaccination series completed indicates that a resident has received the second dose of a two dose COVID-19 vaccine (Pfizer and Moderna) or one dose of a one dose vaccine. Only two dose vaccines are currently approved and available.

The image shows a promotional poster for a virtual event. On the left, an orange rectangular box contains the event details. On the right, a photograph of Kirk Waller is shown. He is a Black man with glasses, wearing a white and yellow patterned robe, and holding a large, round, light-colored drum. He is smiling and looking towards the camera. The background of the photo is a dimly lit room with a lamp and some plants.

**STORIES OF MY
PEOPLE WITH
KIRK WALLER**
WEDNESDAY, FEBRUARY 10, 2021, 6:30 PM
On the Internet via Zoom

Join master storyteller Kirk Waller as he shares African and African American folktales, legends, and history, bringing them alive with music, movement, singing, and the spoken word. For all ages.

Kirk Waller is an award-winning storyteller who has been performing for more than 20 years. He is the former Chair of the Storytelling Association of California and served as Director of Storytelling at Stagebridge, the nation's oldest and most renowned theatre company of older adults. Sponsored by the San Bruno Public Library and the South San Francisco Public Library.
